PUBLIC COMMENTS:

There were none.

PRESENTATION ITEMS:

A. SFMPO Public Transit Master Plan

Mr. Aune gave a brief update regarding the SFMPO Public Transit Master Plan. The Santa Fe Metropolitan Planning Organization (SFMPO) Public Transit Master plan is one of three “modal priority plans” specifically called out in the 2010-2035 Metropolitan Transportation Plan (MTP). The MTP also includes the 2012 Bicycle Master Plan and the pending 2014 Pedestrian Master Plan. Specifically, the 2010 Santa Fe Metropolitan
Transportation Plan directs the Santa Fe MPO to take on a number of initiatives to advance how the transportation system will become accessible, interconnected, sustainable and multimodal. RFPs are due on March 7 at 2 p.m. local time.

B. 2014 Legislative Report

Mr. Scanland gave a brief overview regarding the 2014 Legislative session and the status of bills the RTD was interested. Mr. Scanland reported that the Capital Outlay bill included $175,000 for the RTD for bus purchases.

ACTION ITEMS FOR APPROVAL/ DISCUSSION:

C. Review and Discussion of Maintenance Facility Conceptual Schematic Design and Cost Estimate

Mr. Mortillaro noted that at the July 13, 2013 Board meeting an award for the planning and conceptual design of a Maintenance Facility was authorized and awarded to Huitt-Zollars. The firm has now completed the program report of the functions and uses which serves as the basis of the design.

[Commissioner Chavez entered the room at 9:20 a.m.]

Mr. Jarrard reviewed the Maintenance Facility conceptual schematic design and cost estimate as presented. A site plan providing for the placement of the facilities and current and future uses of the District property was also presented as well as a floor plan and future building expansion. Lastly, a high level cost estimate was generated for the conceptual design. This cost estimate did not include other site improvements such as the Park and Ride facility or the Transit Orientated Development.

[Mr. Vigil entered the room at 9:41 a.m.]

Mr. Mortillaro mentioned that the project will not be able to be constructed until a funding source is secured, however, if District capital funds are available and if authorized by the Board at budget time it might be possible to proceed with final design of the project. Final design will take approximately 6-9 months. The estimated cost for design is $577,500.

[No action was required on this item. This item was for discussion and review only.]

D. Discussion and Consideration of Resolution 2014-04 Authorizing the Title VI Update

Ms. McGuire gave a brief overview on this item. She noted that the NCRTD is mandated by FTA C 4702.1A to adopt Title VI regulations (49 CFR part 21). This program will integrate into the Districts programs and activities considerations expressed in the Department’s Order on Environmental Justice (Order 5610.2), and Policy Guidance Concerning Recipients’ Responsibilities to Limited English Proficient (LEP) Persons (70 FR 74087, December 14, 2005). FTA requires this program in order to receive grant funds that are passed through the New Mexico Department of Transportation (NMDOT) and received by the NCRTD.

Ms. McGuire also mentioned that the proposed Title VI program had already been reviewed by NMDOT. Resolution 2014-04 provides for the adoption of the FTA mandated Title VI Program which prohibits discrimination on the basis of race, color, or national origin in federally funded programs and activities.
Further discussion went on regarding this item.

It was recommended that the Board move for approval of Resolution No 2014-04 authorizing the adoption of the District’s Title VI program.

**Mr. Bulthuis made a motion to approve Resolution 2014-04 as presented. Commissioner Trujillo seconded the motion and it passed by unanimous voice vote (12-0).**

[Mr. Bulthuis exited the meeting.]

**E. Discussion and Consideration of Resolution 2014-05 Establishing a Sustainability Committee and Adopting a Charter for the Appointment of Members**

Mr. Kelly gave a brief overview on this item noting that the Board adopted a Sustainability Plan on February 7, 2014. The plan calls for the establishment of a Sustainability Committee that would set goals, measurements and provide reports of progress on sustainability initiatives and goals to the Board. In order to form a Sustainability Committee, there is a need for a Sustainability Charter that sets the framework for the establishment of the Sustainability Committee by the Board and the work the committee will be tasked to perform.

Mr. Kelly went over the Sustainability Charter in further detail.

Further discussion went on regarding this item.

It was recommended that the board consider approve Resolution 2014-05 authorizing the adoption of the Sustainability Committee Charter that will provide for the establishment the Sustainability Committee in order to facilitate the success of the Sustainability Plan.

Per Mr. Dwyer, it was recommended that page 1 (page 88 of packet) of the Sustainability Charter be amended to state “4 – 2 year terms”, rather than “3 – 2 year terms”.

**Commissioner Chavez made a motion to approve Resolution 2014-04 as amended. Councilor Ring seconded the motion and it passed by unanimous voice vote (11-0).**

**F. Discussion and Direction Amending the Para Transit and Demand Service Policies**

Mr. Kelly noted that the “ADA Complementary Paratransit and Demand-Response Service Policies and Procedures” require updates to the policy in order to capture the FTA-ADA requirements outlined in the updated Service Plan along with the addition of Dial-a-Ride service in Pojoaque-Nambe. As a result of these changes a discussion regarding the expanded ¼ mile zone on all routes and specifically the Chimayo Route and the Santa Fe Route into Santa Fe County have prompted the need for further policy clarification from the Board regarding the peak period expansion of the demand response service outside of the 15 mile Rio Arriba County radius.

[The Board recommended that staff return with a resolution for adoption of the amended policies for the next Board meeting on April 4, 2014.]
DISCUSSION ITEMS:

G. Discussion and Review of Ski Santa Fe Service Update

Ms. McGuire mentioned that NMDOT was provided a detailed budget in February for each route/component included in the original request, including the anticipated service expansion to Santa Fe National Forest and Ski Santa Fe. The budget has been reviewed by NMDOT, and it has been determined that additional funding will not be provided for FY14. However, NMDOT will preliminary include the additional request for services in the FY15 request.

Ms. McGuire also stated that she was working with Steve Elkins and NMDOT to determine how to proceed and what is expected in submitting a revised FY15, 5311 application that incorporates the additional requests.

Internal conversations among Staff have begun to address the funding component and the potential partners that could play a role. It is anticipated that in the coming weeks a formal funding approach will be designed with details to be provided at the April Board meeting.

Ms. McGuire went on further stating that the NCRTD had been approached by members of community groups and/or transit advocates, and would like to be involved in the process. A representative of both the Sustainable Santa Fe Commission and Business and Quality of Life Committee have reached out to the NCRTD and have expressed a willingness to participate and facilitate the provision of additional information supplied by local interest groups. The District looks forward to working with these pasties as this project moves forward.

[No action was required on this item. This item was for discussion and review only.]
