The Standards and Practices for Service Request Prioritization, Bus Stop Location Selection, and Route Service Level Designation described in the resolution are designed to provide an updated comprehensive framework for the assessment and implementation of new and modified services on the route, service, and stop levels for the North Central Regional Transit District (NCRTD).

G. Follow Up Discussion on the Six Month Assessment of System wide Route Modifications and Final Consideration of Resolution No. 2016-05 Adopting System Modifications.

At the October 2015 NCRTD Board meeting, multiple route modifications were suggested as a result of the six month assessment of our system wide route enhancements that were implemented in March 2015. At that time, Staff recommended the elimination of the midday trip that serves Edgewood and Eldorado (no other service on either the Edgewood or Eldorado routes is to be affected) as well as the elimination of the Wednesday service to Golden on the Turquoise Trail route, both due to low ridership. During the discussion, it was requested by NCRTD Board that the public be notified and public meetings be held to garner feedback in the event of a significant modification to a route.
