North Central Regional Transit District (NCRTD)

Resolution 2013 - 26

Resolution Authorizing Investment of Monies in the New Mexico Local Government Investment Pool

WHEREAS, the Governing body in and for the NCRTD, are authorized to participate in the local short-term investment fund, established pursuant to Section 6-10-10-10.1 NMSA 1978, maintained by the New Mexico State Treasurer for the investment of public funds of the local public bodies of the state; and

WHEREAS, North Central Regional Transit District’s adopted financial policies allows for the participation of and investment of its funds in the Local Government Investment Pool and which the District finds as prudent passive investment;

NOW, THEREFORE, BE IT RESOLVED THAT the Executive Director has delegated to the Finance Director of NCRTD the responsibility for the management of the District’s investment portfolio for and on behalf of NCRTD and authorizes the deposit and withdrawal of monies in the Local Government Investment Pool operated by the State Treasurer of the State of New Mexico.

BE IT FURTHER RESOLVED that the following employees or their successors are authorized to order the deposit or withdrawal of monies in the Local Government Investment Pool until this authority is revoked by the action of the Executive Director and written notice of such action is received by the State Treasurer.

Executive Director, Anthony Mortillaro  
Signature

Finance Director, Glenda Aragon  
Signature
PASSED, APPROVED AND ADOPTED BY THE GOVERNING BODY OF THE NORTH CENTRAL REGIONAL TRANSIT DISTRICT ON THIS 8TH DAY OF NOVEMBER, 2013.

LGIP Participant Manual

New MexiGROWLGIP

The state of New Mexico's participating government investment fund, known as the New MexiGROW Local Government Investment Pool or the LGIP, is established under NMSA 1978, Section 6-10-10.1. The LGIP is a short-term investment fund, consisting of deposits from governmental entities and Indian tribes or pueblos. The authorizing statute offers eligible participating governments a voluntary investment option that is intended to safely generate market returns by utilizing the purchasing power of a large, pooled fund.

The LGIP is held in the custody of the State Treasurer, who invests the pooled funds as allowed under state statute with the advice and consent of the State Board of Finance. The fund is managed internally by the State Treasurer's professional portfolio managers. Investment activity and performance are reported monthly to the State Board of Finance and to the State Treasurer's Investment Committee, also known as STIC. STIC is composed of the State Treasurer, the Treasurer's Chief Investment Officer, the director of the State Board of Finance, and two public members from the investment community selected by the Treasurer and the State Board of Finance. The State Treasurer's monthly investment reports are posted regularly on the State Treasurer's Office (STO) website at www.stonm.org.

State Treasurer's Investment Authority and Policy

The scope of the State Treasurer's investment authority is defined by the applicable investment statutes and constitutional provisions, principally NMSA 1978, Sections 6-10-10, 6-10-25, 6-10-26, 6-10-37, 6-10-44 and 6-14-10.1, as well as Article VIII, Section 4 of the New Mexico Constitution. Statutes specify the particular types of investments that may be made by the State Treasurer and establish certain
prerequisites, limitations and other requirements related to those investments. Moreover, the State Treasurer may further limit or restrict those investments.

Section 6-10-10.1 establishes guidelines applicable to the investment of funds deposited in the LGIP. This statute requires that the portion of the LGIP invested in short-term investments be rated by a nationally recognized statistical rating organization and maintain a rating of AA or higher. If the rating received by the LGIP is lower than AA, the State Treasurer shall immediately submit a plan to the State Board of Finance detailing the steps that will be taken to obtain a AA or higher rating. The LGIP adheres to all criteria relevant to its rating category and provides to the rating agency any key policy or staff changes.

In addition to applicable state statutes, the State Treasurer's Investment Policy governs the investment functions of the State Treasurer. The Investment Policy is approved by the State Board of Finance and sets forth investment guidelines for all STO investments. Pursuant to the Policy, all investments made by the STO adhere to the fundamental principles of safety, liquidity, and return in that order.

The Investment Policy further requires the STO to diversify its investment portfolios. Assets are diversified to reduce the risk of loss resulting from an over-concentration of assets in a specific maturity, a specific issuer, or a specific class of securities.

The following investment and diversification limitations are imposed on the LGIP to comply with the Investment Policy and to maintain the fund rating:

- Allowable investments include U.S. Government obligations, commercial paper (with credit ratings of A-1, P-1, F1, or better), corporate bonds (rated A+ or better), asset-backed obligations, repurchase agreements, variable rate notes, New Mexico municipal bonds, and money market funds registered with the Securities and Exchange Commission (SEC).

- Investments in commercial paper, corporate bonds and asset-backed obligations shall not exceed 40 percent of total LGIP assets.

- Investments in commercial paper or corporate bonds of any single issuer shall not exceed 5 percent of the total LGIP portfolio. Investment in U.S. Agency securities issued by any
single issuer shall be limited to 33.33 percent of the total LGIP portfolio.

- Investment in a SEC-registered, AAA-rated money market fund shall not represent more than 5 percent of the total assets of that fund and no more than 25 percent of the LGIP portfolio.

- Investment in repurchase agreements with a single A-1 rated counterparty shall be limited to 25 percent of total pool assets. Flexible repurchase agreements are not allowable investments for the LGIP portfolio.

- The weighted average maturity, or WAM, of the portfolio shall be 60 days or less. Portfolio maturities are laddered to avoid undue concentration of assets in a specific maturity sector and to accommodate anticipated cash flow requirements.

- The portfolio shall maintain a minimum of 50 percent of total assets in A-1+ rated securities and a maximum of 50 percent in A-1 rated securities. Repurchase agreement counterparties must have a A-1 or better rating; money market funds used as investments must be AAA rated; commercial paper investments shall be rated A-1+.

- The State Treasurer's Investment Policy mandates that the Pool be invested to maintain a stable net asset value of $1.00 per share. Should the portfolio experience a fluctuation in net asset value that drops below 0.9975 cents per share, the State Treasurer's Office is required by policy to notify the State Treasurer's Investment Committee.

- The final maturity of fixed-rate investments of the Pool shall not exceed 397 days, and the recorded maturity date of callable investments shall be the stated final maturity rather than the call date.

- The STO is required to procure or develop and maintain a shareholder accounting system for the Pool to account for deposits, withdrawals, and interest distributions. To meet this mandate, the STO has implemented the QED Information System, which is an investment accounting and tracking software application.
Income is equal to accrued interest, plus or minus realized gains or losses, less an administrative fee. The administrative fee is recognized as revenue to the State General Fund. Section 6-10-10.1 directs the State Treasurer to use the administrative fee for the administration and management of the LGIP subject to appropriation by the state legislature.

Participation in the LGIP

Section 6-10-10.1, NMSA 1978 allows eligible participating governments to make deposits in the LGIP with the approval of their governing bodies. Eligible participants include, but are not limited to, school districts, post-secondary educational institutions, special purpose districts, cities and counties, and Indian tribes and pueblos.

Investment of Pool Funds

The scope of the State Treasurer's investment authority is defined by the applicable investment statutes and constitutional provisions, principally NMSA 1978, Sections 6-10-10, 6-10-25, 6-10-26, 6-10-37, 6-10-44 and 6-14-10.1, as well as Article VIII, Section 4 of the New Mexico Constitution. Statutes specify the particular types of investments that may be made by the State Treasurer and establish certain prerequisites, limitations and other requirements related to those investments. Moreover, the State Treasurer may further limit or restrict those investments. Section 6-10-10.1 establishes guidelines applicable to the investment of funds deposited in the LGIP.

Management of Investment of Funds

The State Treasurer's Office Local Government Investment Pool Bureau manages the investments, tracks participant activity, and computes and distributes participant investment earnings. Investment earnings are based upon a participant's account balance and the average term that a deposit is held in the Pool. Professional investment portfolio managers coordinate and execute investment trades utilizing online trading platforms, Bloomberg and TradeWeb in compliance with the State Treasurer's Investment Policy.

Interest on Investment

The Local Government Investment Pool Bureau provides daily an interest rate that estimates the daily return on LGIP deposits along with informational current rates for short-term investments offered by the
U.S. Treasury. The daily rate may be obtained by calling the STO at (505) 955-1171 or visiting the STO website at www.stonm.org.
Interest income is distributed monthly via automated clearing house (ACH) transaction or is reinvested no later than the fifth working day of the following month. Monthly income shall be equal to accrued interest, plus or minus realized gains or losses, less an administrative fee. The actual interest rate is a blended yield of the investment holdings determined at the end of the accounting period (month end). Interest is earned on the business day of deposit, once a deposit is verified to have been received into the LGIP bank account and has met all deposit requirements set forth by the LGIP Bureau. Once a withdrawal is processed the amount withdrawn no longer receives interest on said amount on the date of withdrawal.

**Net Asset Value**

The State Treasurer's Investment Policy mandates that the LGIP be invested to maintain a stable net asset value of $1.00 per share. Should the portfolio experience a fluctuation in net asset value that drops below 0.9975 cents per share, the State Treasurer's Office is required by policy to notify the State Treasurer's Investment Committee. The LGIP is designed and managed to maintain a net asset value of $1.00 and allows for investment of funds that may be needed by participants at any time.

**Separation of Participant Money from Other Public Money in the Investment Pool**

Participating governments' invested funds are pooled for investment purposes but are accounted for and reported separately, as required by statute. All interest earned from investment of LGIP assets is distributed to a participant in an amount directly proportionate to their respective amount on deposit in the Pool and the length of time the amount on deposit is invested.

**Cost of Participation in the Pool**
By law, the STO may charge a fee to participants in the LGIP. A nominal fee is assessed at the end of each month for administrative expenses and services necessary to operate the pool. The fee is assessed based on the average daily balance of the participant balance.

**Steps to Become a Participant**

An eligible governing body must, by resolution, authorize participation in the LGIP. A copy of the resolution, an application form, and a certificate with signatures of persons authorized to conduct transactions are forwarded to the STO. Upon receipt of the completed documents, STO accepts a deposit into the LGIP. LGIP participant forms are available on the STO website at www.stonm.org.

Before the funds of an eligible governing body may be invested or reinvested in the LGIP, it is the responsibility of the eligible governing body to comply with NMSA 1978, 6-10-36, if applicable, and any other statutes or policies that may apply to the eligible governing body.

**Investment of a Minimum Amount**

$5,000.00 is the minimum amount needed to participate in the Pool. If special circumstances require investment of smaller amounts, the STO requires a written explanation of the circumstances prior to acceptance of a participant’s deposit.

**Risk**

All investments purchased for the LGIP have a credit rating of A or better to ensure the highest level of safety. All U.S. Government securities are rated AAA and commercial paper qualifying for investment is rated A-1+. The STO is required by law to have overnight repurchase agreements secured at 102 percent by U.S. Treasury and Agency securities. Additionally, the LGIP requires that repurchase counterparties be rated A-1 or better.

*New MexiGROW* LGIP deposits are not guaranteed or insured by any bank, the State of New Mexico, the Federal Deposit Insurance Corporation, the Federal Reserve Board, or any other agency. *New MexiGROW* LGIP deposits involve certain investment risks. Yield and total return may fluctuate and are not guaranteed. Prior to making investment decisions, participants should consider market risk, interest rate risk, and credit risk in determining whether an investment is appropriate.
A detailed description of risk reportable under GASB Statement No. 40 is available to download from the STO website at www.stonm.org, at the "New MexiGROW LGIP" tab and the "GASB 40 Disclosure" subtab.

**Custodian for New MexiGROW LGIP**

The state's fiscal agent bank contracts with a third-party custodian to hold all purchased securities along with the required pledged collateral on the overnight repurchase agreements.

**Ratings**

Section 6-10-10.1 requires the portion of the LGIP invested in short-term investments be rated by a nationally recognized statistical rating organization and maintain a rating of AA or higher. If the rating received by the LGIP is lower than AA, the State Treasurer shall immediately submit a plan to the State Board of Finance detailing the steps that will be taken to obtain a AA or higher rating.

The ongoing rating process involves a review of the STO's internal controls, investment policies and procedures, portfolio inventory, and the fund manager's experience. The New MexiGROW LGIP is rated AAM. The LGIP adheres to all criteria relevant to its rating category and provides to the rating agency any key policy or staff changes.

**Independent Auditor**

The STO is subject to annual review and audit by an independent auditor and the New Mexico State Auditor. The annual audits for the fiscal years ended June 30, 2006, 2007 and 2008 are downloadable from the STO website at www.stonm.org.

**Availability of Participant Funds**

When depositing money in excess of $20 million into the LGIP, participants must notify the LGIP bureau of the length of time the deposit will be in the Pool. Participant funds of amounts less than $30 million may be withdrawn within 24 hours. Withdrawal requests in excess of $30 million require 48-hours notice to the STO. Only those persons authorized on a participant’s LGIP application shall conduct transactions for a participant’s account. All forms associated with participant deposits or withdrawals are available on the STO website at www.stonm.org.
The following procedures must be followed in order for participants to deposit or withdraw funds from the LGIP portfolio.

Notification of the intent to submit a transaction form must be provided to STO via phone, email, or fax.

Contribution and withdrawal forms must be completed, signed by the authorized person, and sent to STO via fax or email.

Participants are responsible for providing accurate banking instructions to the LGIP Bureau. Participants are also responsible for updating account information a minimum of once a year. Participants should also ensure that their contact information is updated as necessary.

**STO Contact information:**

- LGIP Bureau Fax: (505) 955-1180
- Hannah Chavez, LGIP Accountant
  Phone: (505) 955-1154
  Email: Hannah.chavez@state.nm.us
- Kirene M. Bargas, LGIP Bureau Chief
  Phone: (505) 955-1136
  Email: Kirene.bargas@state.nm.us

**Contributions**

Once a participant provides the proper documentation to LGIP, the participant must contact their respective financial institution to implement the transaction. When the STO receives funds from the participant’s financial institution, a deposit is made into the LGIP bank account. The transaction is then entered into the participant’s LGIP account and the funds are available for withdrawal.

**Withdrawals**

Once a participant provides the proper documentation of a withdrawal to the LGIP Bureau, the request will be reviewed for acceptance by the LGIP Accountant. Upon acceptance, the LGIP Accountant will process the request through the LGIP Financial system.
The LGIP Bureau will transfer funds based on the banking information provided to the LGIP Bureau. All of the following withdrawal guidelines must be followed by LGIP participants:

**Withdrawal Guidelines**

- Amounts less than $30 million may be withdrawn within 24 hours of notice to the STO;
- Amounts of $30 million to $60 million require 48-hours notice to the STO; and
- Amounts in excess of $60 million require notice of 5 business days to the STO.

Funds are withdrawn from the Pool one business day prior to transfer to maintain the liquidity of the Pool for all participants.

With prior approval by the LGIP Bureau Chief or a designee, participant withdrawals made within the 24-hour limitation will be treated as an emergency withdrawal. Participants will be charged an emergency withdrawal fee to cover the cost of the emergency wire. Emergency withdrawal requests must follow the withdrawal procedure outlined above and must include a letter explaining the emergency. The LGIP Bureau reserves the right to decline any emergency withdrawals.

**Stability Protection**

Notwithstanding the withdrawal guidelines, the STO reserves the right to limit participant withdrawals if the State Treasurer determines that doing so is required to ensure the stability of the LGIP.
POOL PROFILE
New Mexico Local Government Investment Pool

About the Pool

- **Pool Type**: Stable NAV Government Investment Pool
- **Investment Adviser**: New Mexico State Treasury
- **Portfolio Manager**: Kirene M. Bargas (Since 2007)
  Vilki Hanges (Since 2011)
- **Pool Rated Since**: August 2006
- **Distributor**: New Mexico State Treasury

Rationale
Standard & Poor's rates the New Mexico Local Government Investment Pool (LGIP) 'AAAm'. This rating demonstrates that the fund has an extremely strong capacity to maintain principal stability and to limit exposure to principal losses due to credit risk. This is achieved through prudent internal controls and investment policies. The rating is based on Standard & Poor's analysis of the pool's credit quality, market price exposure, and management. Standard & Poor's monitors the pool's portfolio holdings on a weekly basis.

Overview
The New Mexico Local Government Investment Pool was established in 1991 as a short-term investment pool. The investment objective of the LGIP is to adhere to three fundamental policies: offer safety, provide liquidity, and generate returns. Participating entities include local governments (cities, counties, townships, villages), school districts, higher education institutions, special districts, and quasi-state agencies.

Management
The State Treasurer's Office (STO) operates the LGIP for the use and benefit of New Mexico's communities. Within the STO, a team of professionals are involved with management of this pool. The individuals dedicated to the LGIP on a daily basis include the LGIP portfolio manager, investment division bureau chief, and the investment transaction analysts. They are supplemented by oversight from the chief investment officer. The LGIP portfolio manager, chief investment officer, and the investment division bureau chief comprise the internal investment advisory team, which analyzes and selects all investment activity. The STO reports monthly to the state treasurer's investment committee, which is comprised of the state treasurer, the chief investment officer, the director of the state board of finance, and two private-sector members from the investment community. In addition, on a monthly basis, STO reports the LGIP investment and cash activity to the state board of finance, which is comprised of the governor, the lieutenant governor, the state treasurer, and four appointed members, and is the oversight board for the treasurer's office.

Portfolio Assets
All investments within the New Mexico Local Government Investment Pool are governed by the State Treasurer's Investment Policy and approved by the New Mexico State Board of Finance, which sets state investment guidelines. Management's intent is to offer public entities an investment option that is safe and liquid, and that will perform competitively with national governmental money-market funds. All investments made by the state treasurer adhere to the three aforementioned fundamental principles. In adhering to these principles and statutes, investments for the LGIP consist of an array of highly-rated securities such as U.S. government agency securities, direct issues of commercial paper, repurchase agreements, and other bank deposits. All repurchase agreements will be with highly-rated counterparties and over-collateralized with U.S. government or agency securities.

**Investment Policy**

It is the policy of the NCRTD to invest public funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state statutes governing the investment of public funds.

**Delegation of Authority**

Responsibility for the management of the District’s investment portfolio is delegated to the District’s Finance Manager by the Executive Director. The District’s Finance Manager will establish and maintain written procedures for the operation of the cash management and investment program consistent with this policy. Such procedures shall include explicit delegation of authority to persons responsible for investment transactions. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established by the Finance Manager.

**Prudent Person Rule**

Investments on behalf of the District will be made in accordance with the “prudent person” rule; i.e. investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.

**Scope of Policy**

Unless otherwise noted, this investment policy will apply in its entirety to all monies of the District over which it has direct control as well as those funds that the District is responsible for as custodian and/or trustee.

**Investment Objectives**

The District seeks to balance three primary objectives for its cash portfolio:

- Maintaining sufficient liquidity to meet financial obligations;
- Earning a market rate of return (subject to permitted investment constraints); and
- Diversifying investments among asset classes to ensure safety of principal.

The liquidity goal is achieved by matching investment maturities with the expected timing of obligations. Attainment of a market return is measured by benchmarking the portfolio against a relevant market index. Diversification (safety) is accomplished through implementation of a strategic asset allocation, derived from modern portfolio theory concepts.
a rate of return that equals or exceeds the yield for the three month treasury bill.

5. Diversification

The District will diversify its use of investment instruments to eliminate nonsystematic risk. Strategic and tactical asset allocations shall be determined and revised periodically. In establishing asset allocations strategies, the following general policies and constraints shall apply: Portfolio maturities shall be staggered to avoid undue concentration of assets in a specific maturity range. With the exception of U. S. Treasury securities and authorized pools, no more than 50% of the total investment portfolio will be invested in a single sector or with a single financial institution or in a single maturity range. Maturities selected shall provide for stability of income and reasonable liquidity.

1. Liquidity shall be assured through practices ensuring that the next disbursement date and payroll date are covered through maturing investments.
2. Interest rate risk shall be controlled through duration management such that overall portfolio duration is set to a target based on existing market interest rates and rate expectations.

Selection of Brokers/ Dealers

The Financial Manager shall develop and maintain a list of banks and securities dealers approved for securities transactions initiated by the district, and it shall be the policy of the District to purchase securities only from those authorized firms. To be eligible, a firm must meet at least one of the following criteria:

1. Be recognized as a Primary Dealer by the Federal Reserve Bank of New York or have a Primary Dealer within its holding company structure,
2. Report voluntarily to the Federal Reserve Bank of New York,

The Finance Manager will select broker/dealers on the basis of their expertise in public investing and their ability to provide service to the Districts account. Each authorized broker/dealer shall be required to submit and annually update a District approved Broker/Dealer Information Request form that includes the firm's most recent financial statements.

Approved broker/dealers shall attest in writing that they have received and read this Policy.

Safekeeping and Transaction Settlement
The Financial Manager shall approve one or more financial institutions to provide securities safekeeping services for the District. All investment securities purchased by the District will be held in third-party safekeeping by the District’s safekeeping agent. The District’s safekeeping agent will be required to furnish the District a list of holdings on at least a monthly basis. The purchase and sale of securities and repurchase agreement transactions shall be settled on a delivery versus payment basis. Ownership of all securities shall be perfected in the name of the District. Sufficient evidence to title shall be consistent with modern investment, banking, and commercial practices.

**Competitive Transactions**

Securities purchases and sales will be executed after obtaining at least two competitive bids or offerings whenever feasible. If the District is offered a security for which competitive offerings cannot be obtained, quotations for comparable securities will be documented.
Performance Standards

The Districts’ objective is to obtain a market average rate of return throughout budgetary and economic cycles that corresponds with invest risk constraints and cash flow needs.

The Districts’ investment strategy is passive. Given this strategy, the Finance Manager shall determine whether market yields are being achieved by comparing the average District portfolio yield to the 90 day U.S. Treasury Bill or the treasury security that most closely matches the duration of the portfolio.

Ethics and Conflicts of Interest

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Employees and officials who are involved in investing public funds or have the authority to decide how public funds are invested shall disclose to the District Board any material financial interests in financial institutions that conduct business within the Districts’ jurisdiction, and they shall further disclose the conduct of personal business with, receipt of pecuniary benefit from, or financial interest they have in any entities in which investments are being made.

1. Permitted Investments (any investment not mentioned herein is prohibited)

   i. Direct obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by, the United States of America or certificates or receipts established by the United States government or its agencies or instrumentalities representing direct ownership of future interest or principal payments on direction obligations of, or obligations fully guaranteed by, the United States of America or any of its agencies or instrumentalities, the obligations of which are backed by the full faith and credit of the United States.

   ii. Accounts, certificates of deposit and time deposits with banks and savings banks located in the District’s service area provided that the collateral securing the investment permitted by this paragraph, are secured by the FDIC.

   iii. Bonds or securities of the State of New Mexico or of any agency or political subdivision or school district thereof which has a taxable valuation of real property for the last year of at least one million dollars and has not defaulted in the payment of interest or sinking fund obligation or failed to pay any bonds at maturity at any time within five years preceding the date of investment.

   iv. The “short-term investment fund” described in Section 6-10-10.1 N.M.S. A. 1978 or other similar pooled funds maintained by the State of New Mexico for the investment of public funds of the local public bodies of the state.

   v. Shares of pooled investment funds managed by the state investment officer, as provided in Subsection (G) of Section 6-7-8 NMSA 1978.

   vi. Any other investment permitted at the time of the investment by a statute of the State of New Mexico for public entities.
2. Funds available for investment for more than one year, including monies appropriated to permanent and irrevocable trust funds may be invested as provided in Section 6-10-10.6 NMSA 1978. The Investment Officer shall conduct a thorough investigation prior to investing in any pool or fund and on a continuing basis once an investment is made. Information gathered will include a written statement of policy and objectives, eligible securities, interest calculation and distribution, securities settlement and safekeeping, handling gains/losses, audit opinions, and fee schedules and statements.

3. Collateralization

New Mexico state law require that all certificates of deposit, money market, checking accounts, and any other investments not backed by the full faith and credit of the United States Government, other than investments in the New Mexico State Investment Council long-term investment funds, be secured by pledged collateral of at least 50 percent of the current market value. This collateral will be pledged in the name of the District and held by a third party institution, Federal Reserve Bank, or by a trust institution within the same bank as approved by the Financial Manager. The institution will issue safekeeping receipts to the District for securities held by a third party. The District will require that at all times; pledged collateral will be equal to, or greater than, 50 percent of the current market value of the Districts' applicable investments.

4. Selection of appropriate Investments

i. Individual investments are selected to meet anticipated cash flow requirements and provide adequate liquidity. Within this cash flow perspective, the investment manager will select those securities that will best meet the District's overall portfolio strategy.

ii. Criteria for selecting investments and the order of priority are:

1. Safety. The safety and risk associated with an investment refers to the potential loss of principal, interest or a combination of these amounts. The objective is to select only those investments that seek to ensure the preservation of capital in the overall portfolio and to mitigate credit risk and market risk.

2. Liquidity. This refers to the ability to "cash in" at any moment in time with a minimal chance of losing principal or interest. Liquidity is an important investment quality, especially when the need for unexpected funds occurs. The objective is to remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated within one hundred and eighty (180) days.

3. Yield. Yield is the potential dollar earnings an investment can provide, also referred to as the rate of return. The objective is to attain
