If the party requesting charter service does not meet any of the requirements for an exception, NCRTD will not provide the party with charter service.

The NCRTD staff person responsible for charters (as designated by the Transit Operations and Maintenance Manager) will then determine the eligibility of the applicant. If the NCRTD staff person deems the applicant ineligible, they will notify the applicant of the decision and the reason for the decision. If the applicant is deemed eligible, vehicle availability for the vehicle type requested during the time and date specified will be confirmed with the Route Supervisors for scheduling. NCRTD may deny any request based on vehicle availability.

The route by which the chartered vehicle will travel will be determined by the NCRTD staff person designated by the Transit Operations and Maintenance Manager. The route will be described on the application. The route may not begin or end outside the boundaries of the North Central Regional Transit District.

The application and the information provided by the applicant will then be forwarded to the Transit Operations and Maintenance Manager to approve or deny the application for charter service and the route described on the application. If approved, the NCRTD staff person designated by the Transit Operations and Maintenance Manager will then create a schedule/itinerary for the chartered service and provide it to the Route Supervisor.

VIII. Appeal Procedure

Should any party requesting charter service feel they have wrongfully been denied service; they may appeal the Transit Operations and Maintenance Manager’s decision to the NCRTD Executive Director. The appeal must be in writing and must be submitted within seven days of notification that charter service will not be provided. If, after reviewing the facts, the Executive Director deems that providing the charter service is permissible and desirable, the Executive Director will direct the Transit Operations and Maintenance Manager to schedule the service.
